Design Technologist with **8+ years** at the intersection of design and engineering — **Amazon India's first-ever Design Technologist**, builder of **4 design systems** used by hundreds of engineers, now **Director of UX Design & Software Engineering** leading a 10-person team. I take products from Figma to production personally: design systems, coded prototypes, and high-conversion interfaces — one brain, zero handoff.

EXPERIENCE

Director, UX Design & Software Engineering — Ares Labs

Jul 2025 – Present · Delhi

Promoted from Senior Design Engineer / Design Technologist (Jul 2025 – Jun 2026)

- Lead a **10-person design + engineering team**, aligning technical delivery with business goals across distributed cross-functional stakeholders.
- Governed and architected the **internal design system**, unifying design and engineering for scalable UI consistency.
- Modernized the engineering workflow with **AI-powered tooling**, cutting SDLC iteration cycles by **70%**.
- Engineered a custom **CRM** that streamlined internal UX and drove a **10%** increase in net earnings.
- Led end-to-end development of proprietary **prenatal-screening software**, reducing reporting turnaround by **30%**; automated service & maintenance journeys for a further **40%** TAT reduction.

Senior Frontend & Design Engineer — OpenRipples (freelance services firm)

Dec 2024 – Present · Remote

- Design-engineering expertise for client projects — selected work:
- **Cove & Lane** (fashion e-commerce): conversion-focused design refresh + performance overhaul, **+40%** performance metrics.
- **Noukai Tokyo**: Shopify product store designed and built from scratch (Phase II in progress); **Pragya Vijh**: end-to-end e-commerce store for products and services.

Senior Design Technologist — Boomi

Aug 2024 – Jun 2025 · Bengaluru

- Designed, developed and maintained **Magnetosphere** (internal) and robust UI components for **Exosphere** (public design system).
- Bridge between UX and engineering in a 7-person team (3 UXD, 3 SDE, 1 PM): requirements → mocks/prototypes → user-research testing → iteration → code review.
- Improved design-system and platform performance through front-end optimization and **WCAG 3 accessibility** compliance.
- **Mentored** interns, developers and designers; introduced AI models and tooling that raised team output.

Design Technologist — Amazon, Amazon Business

Mar 2021 – Jul 2024 · Hyderabad

Amazon India's first-ever Design Technologist — the role's success led to its adoption across Amazon Business. Collaborated with 20+ engineers and 10+ UX designers across Hyderabad, Madrid, Austin and Seattle.

- Built accessible components for the **internal design system** (React TypeScript, Storybook, vanilla-extract) with unit/UI testing (Jest, Playwright) and **visual regression testing** (BackstopJS + AWS); WCAG 3 audit drove enhancements to **15+** components.
- Shipped the **Business Prime plans table** to production (JavaScript/SCSS) — **60K+** customer conversions.
- **Mobile Hardblock migration experiment**: hands-on production changes lifted conversion **~35%** and Amazon Business app downloads **~28%**.
- Designed and user-tested the **B2B Bulk Selector prototype** — a multi-page, cost-optimizing purchase journey for the UK/German markets, validated across **10+** research sessions.
- Created **Telescope Mailer**, a no-code newsletter tool (Electron, Pug, Strapi) — 50+ high-impact newsletters, **-80%** creation turnaround.

EXPERIENCE (CONTINUED)

Support Engineer III — Amazon, Fintech

Jul 2020 – Mar 2021 · Hyderabad

- Owned multi-country **tax audits** (France, Germany, UK, Italy, Spain — Python & SQL) and **GST e-invoicing compliance** for all India sellers; altered 80+ reports (SQL, Python, bash).
- Automated recurring workflows and built monitoring to guarantee on-time report delivery; coordinated UAT for new scripts.

Cloud Engineer — Hanu Software (Insight)

Jul 2019 – Apr 2020 · Greater Noida

- Built Azure data platforms for enterprise clients (\$18bn and \$4.2bn revenue): Data Factory pipelines, Synapse Analytics ingestion, Databricks transformation, PowerBI reporting.
- Designed the complete front-end prototype for a chatbot admin portal (\$350M client) — Adobe XD, HTML5, Sass, JavaScript.

Freelance Designer & Developer — Hansei By Design

Nov 2017 – Jan 2020

- Ran an independent studio: UI/UX, web design, frontend development and content for freelance clients — where the design-engineering hybrid practice began.

Summer Intern — AT&T

May 2018 – Jul 2018 · Noida

- Built a Stack Overflow question recommender — data mining with Jaccard's Index in Python, Kaggle dataset, Tkinter UI.

SKILLS

DESIGN ENGINEERING

- Design systems
- Design tokens
- WCAG 3 accessibility
- Rapid prototyping
- Micro-interactions
- User testing
- Storybook

FRONTEND

- TypeScript
- React
- JavaScript
- HTML5
- CSS3 / Sass
- vanilla-extract
- Jest / Playwright
- Framer Motion
- Vite

DESIGN TOOLS

- Figma
- Framer
- Adobe XD
- Photoshop

CLOUD & DATA

- AWS (Amplify, EC2, S3, Lambda, CloudFront, Route 53)
- Azure (Data Factory, Synapse, Databricks)
- Python
- SQL

AI & AUTOMATION

- AI-assisted engineering workflows
- Prompt engineering
- LLM & diffusion tooling

LEADERSHIP

- Team leadership (10 ppl)
- Mentoring
- Design-dev process design
- Stakeholder alignment

EDUCATION & CERTIFICATIONS

- B.Tech, Computer Science & Engineering** 2015 – 2019
Amity University, Noida
- Microsoft Certified: Azure Data Engineer Associate** H310-2626
- Scrum Fundamentals Certified** 663407

RECOGNITION

- Star Performer** — Employee of the Month, Insight Feb 2020
- Highest Committed Student Branch Activist**, Computer Society of India 2018
- President**, CSI Amity Student Branch — grew membership by 200+ 2019

"He brought that rare intersection of design and engineering to discussions, and it showed. Any team would be lucky to have him." — Frank Wang, Design Leader, Enterprise SaaS · more at [linkedin.com/in/jaskiratoberoi](https://www.linkedin.com/in/jaskiratoberoi)
